

CLOSING REMARKS BY:

**HONOURABLE
PROF. DATUK TS. DR. AHMAD FAUZI BIN ISMAIL
VICE CHANCELLOR UTM**

**7TH INTERNATIONAL BIOTECHNOLOGY
COMPETITION AND EXHIBITION 2021 (IBCEx 2021)
(RECORDING)**

12th June 2021

بسم الله الرحمن الرحيم

السلام عليكم ورحمة الله وبركاته

And Greetings To All

الحمد لله رب العالمين

والصلاة والسلام على أشرف الأنبياء والمرسلين،

وعلى آله وصحبه أجمعين.

Thank you, Master of ceremony.

A very good morning to:

1. Mr. Ahmad Fakhrurrazi Arshad,

Head of Stakeholder Relation Repsol Oil & Gas Malaysia
Limited

2. Dr. Yanti Maslina Binti Mohd Jusoh,

Advisor of Bioprocess Engineering Student Society
(BIOSS)

3. Mr. Melson Jones,

Director of International Biotechnology Competition and
Exhibition (IBCEEx) 2021

The organizing committee of IBCEx 2021,
Dearest participants,
Ladies and gentlemen.

1. First of all, I would like to thank the organizer for their kind invitation and it is a great pleasure to celebrate the closing of the 7th International Biotechnology Competition and Exhibition (IBCEx 2021). As I have mentioned before, IBCEx is an event organized by the Chemical Bioprocess Engineering Student Society (BIOSS). Although this is the 7th year of this program, I do admire the commitment of the organizing committee in organizing this successful and outstanding competition and exhibition.

Ladies and gentlemen,

2. It is my belief, innovation does not happen just because we like to do things differently. It happens to answer a need, therefore if we take away the need, we will lose the innovation. Furthermore, innovation is not like most other business functions and activities. In a sense, innovation is a unique feat or the collective imagination that can be

neither predicted nor replicated. This program gives an excellent platform for the people to generate and turn their ideas into valuable products related to biotechnology, which can be contributed to meet the need of the world and people.

Ladies and gentlemen,

3. In the future, biotechnology industry may provide a wide variety of career opportunities to the bioprocess students, like all of you. In addition to pharmaceutical field, there are also areas of food and agriculture. It is a great advantage to participate in this program in order to develop the skills of doing research and presenting the final result to the public. I hope that all participants who will take part in any of the competition and exhibition later will try your best in the exhibition and competition so that all of you will learn some new things and get new knowledge and experience from this IBCEEx 2021.

4. I hope that this program can be maintained and improved for the future. Before I end up my speech, I hereby declare that the 7th International Biotechnology Competition and Exhibition (IBCEx 2021) is closed. Thank you.

Thank you

وبالله التوفيقُ والهداية
والسلام عليكم ورحمة الله وبركاته
