

**CLOSING REMARKS BY:**

**HONOURABLE  
PROF. DATUK TS. DR. AHMAD FAUZI BIN ISMAIL  
VICE CHANCELLOR UTM**

**UTM 1ST INVENCMAX COMPETITION 2021  
(RECORDING)**

**29th May 2021**

بسم الله الرحمن الرحيم

السلام عليكم ورحمة الله وبركاته

***And Greetings To All***

الحمد لله رب العالمين

والصلاة والسلام على أشرف الأنبياء والمرسلين،

وعلى آله وصحبه أجمعين.

1. First and foremost, it is a pleasure for me to give the closing remarks for the **UTM 1st Invenmax Competition 2021**. Our event today has three main objectives.
  - a) Number 1 is to become the pioneer of an annual flagship event that will be the beacon of innovation for transportation;
  - b) Number 2 is to stimulate the innovation and growth mindset of participating team members through comprehensive insights from industry as well as current technological trends and;
  - c) Number 3 is to provide networking opportunities among the participating teams from different universities and courses to encourage collaborative learning and communication.
  
2. We can say with confidence that the UTM 1st Invenmax Competition 2021 has successfully addressed these

objectives very well. In particular, the numbers and diversity of participating teams that have competed virtually with their brilliant design in reflecting the theme of “Transportation in Smart City”.

**Ladies and Gentleman,**

3. We hope everyone had a great time enjoying and interacting with other teams during this event. Society, especially industries and tech experts need to acknowledge what Malaysia's brightest pool of talent can do in building such a comprehensive transportation system solution that overcomes the challenges of the theme. We hope that even after this event ends, all of you will bring home memorable connections, valuable experience, new perspectives, and unlock new technology development possibilities.

4. I have observed all your excellent technical presentations and active discussions, which is why I can conclude that the purpose of the event has been completely accomplished. In addition, your positive responses revealed that you have made careful preparations and great efforts for your participation in advance before attending this event. I would like to pay my deepest respect

to all the participants for your active participation in UTM 1st Invencomax Competition 2021. I hope that what you have learned and experienced through the conference will be very helpful and lead to the betterment of your local transportation system in the future. Undoubtedly, transportation has played and will continue to play a huge part of our life in the future. It is our responsibility as future engineers to always opt for the best solutions to current transportation problems.

**Ladies and Gentlemen,**

5. We've achieved so much in the time we've been here and gained a lot ourselves too. Though UTM 1st Invencomax Competition 2021 has now come to an end, of course, it doesn't really stop here. I am none other than proud and grateful of all of your interest and efforts made in completing your transportation system designs and navigating your ways through our theme this year. I've really enjoyed today's session and I hope you all have also enjoyed it too. No matter what your next steps are, I invite you to treat your experience here as part of a lifetime of learning. And I strongly encourage you to use that learning

to leave every situation better than it was before when you arrived.

6. Before i end my speech, on behalf of Universiti Teknologi Malaysia, I would like to express my appreciation to all the participants for taking your time out of your busy duties to attend the event and to all the organizations for sending excellent participants here today. I would like to close my remarks and officially announce the end of the UTM 1st Invenmax Competition 2021, wishing the future prosperity of all the participating teams, organizing committee and the audiences. Thank you all for your kind attention throughout.

Thank you

وبالله التوفيق والهداية  
والسلام عليكم ورحمة الله وبركاته
